

Crane Operations & Rigging Safety Refresher #828

This course promotes crane safety awareness and the understanding of industry, OSHA, and NASA standards and regulations pertaining to overhead crane operations.

This course serves as a refresher in overhead crane safety and awareness for operators, riggers, signalmen, supervisors, and safety personnel and to update their understanding of existing Federal and NASA standards and regulations related to such cranes. Areas of concentration include: general safety in crane operations, testing, inspections, pre-lift plans, and safe rigging.

Who should take this course:

Crane Operators

- Safety Personnel
- Riggers

• Supervisors

• Signalmen

• Others Involved with Cranes and/or Material Handling at NASA Facilities

Date:

Two classes

8:00- 12:00 & 1:00 – 4:00

October 28, 2004

4 hours

Marshall Space Flight Center
Bldg. 4200, Room G13D

Instructor:

Tim Evans
